Ömer Faruk Kocaağa

omerkocaaga.com | hello@omerkocaaga.com

İstanbul-based designer focused on information architecture, user experience, and user interface design.

Experience

Product Designer

MailerLite – *Jun 2024 - Present*

Working as a Senior Product Designer at MailerLite, contributing to the design and user experience of the company's email marketing platform.

Product Designer

Mobillium – *August 2022 - Jun 2024*

Worked as a Senior Product Designer on the redesign of Aktif Bank's "N Kolay" application and Misyon Bank's "mIO" application.

Product Designer

Appcent – *December 2020 - July 2022*

Responsible for designing products from ideation to delivery, covering all stages of UX and UI design. Acted as the principal designer for major projects, including TUBITAK's "Safir Depo", the Turkish Government's national cloud file storage system and various ongoing projects for Pegasus Airlines.

Product Designer

Hamurlabs – *December 2019 - December 2020*

Worked on Hamurlabs's own ERP product focused on WMS. Also contributed as a product designer to client projects, including Garenta MOOV, Turkey's leading mobility application.

UX/UI Designer & Frontend Developer

Common Studio – *January 2019 - November 2019*

Responsible for both designing and developing custom websites for clients such as artists, designers, studios, and architects, including the renowned data artist Refik Anadol.

Frontend Developer

Solvoyo – *June 2018 - December 2018*

Worked as a frontend developer on Solvoyo's proprietary supply chain management product.

UX/UI Designer & Frontend Developer

Delivato – *April 2017 - January 2018*

Served as the sole designer at a web‑based digital asset management startup. This role also marked the beginning of my frontend development experience.
